

## **Bee Healthy Regional Dental Service**

Kia ora katoa, Talofa lava, Malo e lelei, Bula vinaka, Kia orana and greetings to you all.

### **Exciting news coming your way!**

The Bee Healthy Regional Dental Service provides free dental care for all children from birth to year 8 across the Wellington Region.

The 0800 TALK TEETH (0800 825 583) number is the national free phone number and is the key point of contact for all families wishing to contact the service. Parents/caregiver can call this number if they have concerns about their child's teeth, require an appointment to be changed / arranged or if contact details need to be updated.

From September 2016, will be providing additional support for families across your community by providing clinic phone numbers for three large dental clinic hubs.

These local clinic hub phone numbers will enable families to have increased access to the service. These phone numbers can be used by families who wish to communicate directly with the hub / therapist who is providing the care plan for their child's dental treatment.

The phone number listed below is situated in a clinical environment and therefore may not be responded to immediately by a staff member. Any messages left on the phone will be retrieved every morning and afternoon, Monday to Friday and whilst the hub is open.

Any messages requiring a reply will be responded to in a timely manner. Any parents / caregivers with an urgent call should use the 0800 TALK TEETH (0800 825 583) number.

### **Local hub clinic phone number**

**Selby House, Newtown**

**04 806 2801**

We would like to thank you for all your help in continuing to ensure that children and families are aware of how to access the Bee Healthy Regional Dental.

Yours sincerely,

Bee Healthy Regional Dental Service  
Management Team
